This diagram of descendants of Thomas Cowles was made principally from information furnished by Mr. R. P. Taylor (No. T 30), a man of learning, and possessed of an unusual memory. There is a legend among the older members of the family that three brothers, Thomas, John and Henry Cowles came from England to James City county, Va., about two hundred years ago. Colonel Calvin D. Cowles, of the army, and historian of the family, is of the opinion that all members of the Virginia branch of the Cowles family are descended from one Richard Cowles, who patented land in Virginia as early as 1614. This land afterwards passed into the hands of Edmund Cowles in 1666.
